

## Card Management

Take control of your debit card using FNB Bank's Digital Banking\* card management!

To start using card management, login to your FNB digital banking and click **Manage Cards**:

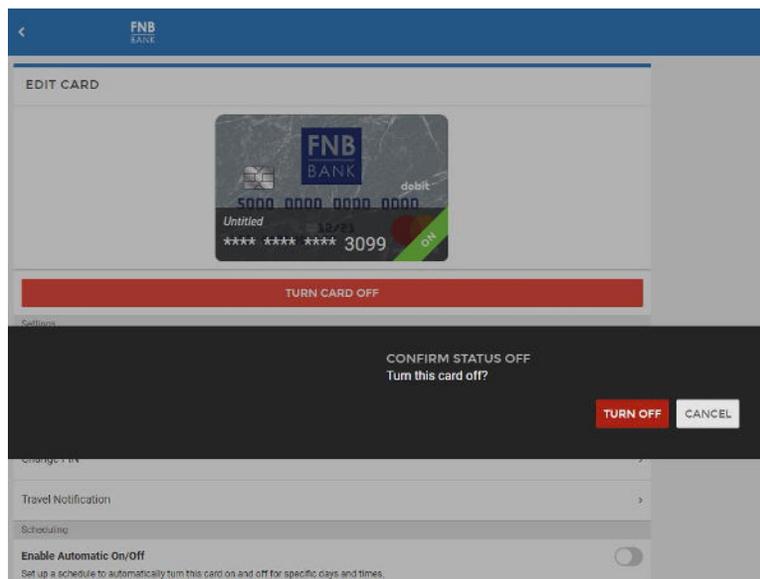

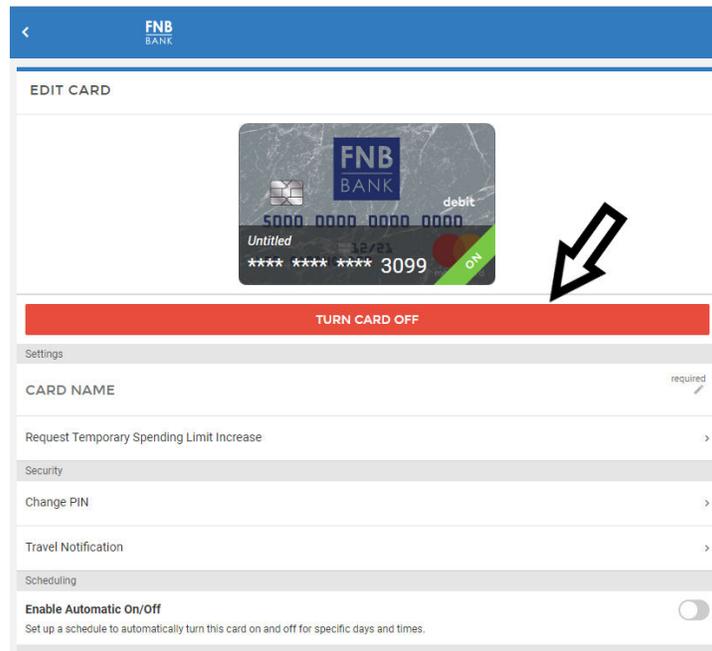

You will see a list of all debit cards that are associated with your SSN. Click on your desired card.

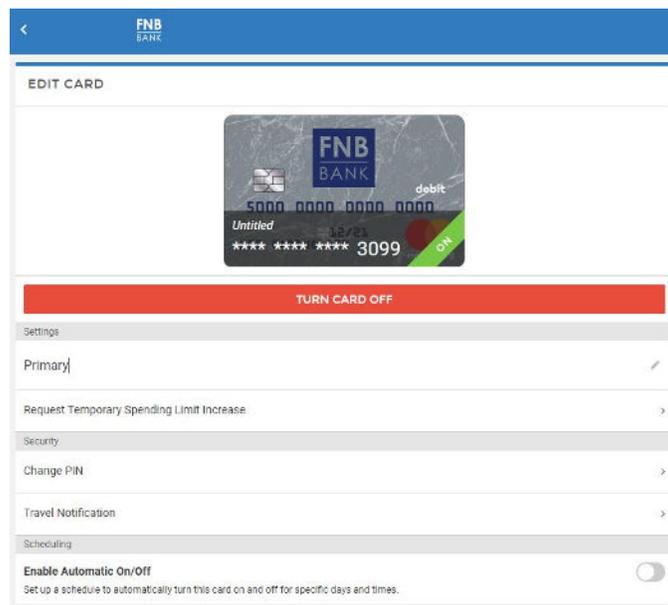

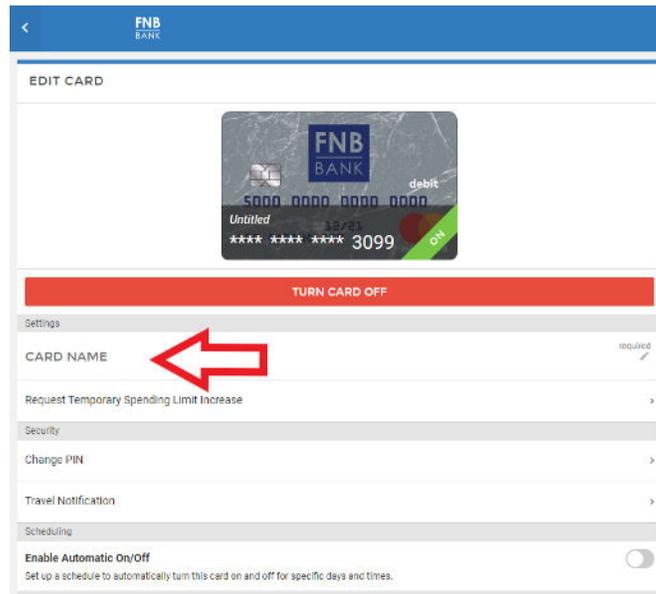

## Enable / Disable Card

Card management allows you to enable or disable your debit card as you see fit. This option is particularly useful if you believe your card may have been compromised, but you still want to be able to make purchases or withdraw cash when needed. To disable your debit card, click the red button to **TURN CARD OFF**. The system will ask to confirm the status, click **TURN OFF**. This process will be identical to re-enable the card, but with verbiage to turn the card on.

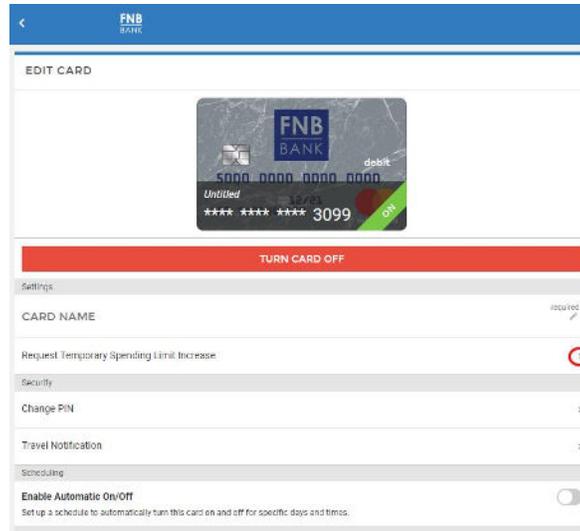

## Name Your Card

Keeping track of multiple debit cards assigned to different accounts can be confusing. By using the card name feature, you can easily distinguish which debit card goes to each account. For instance, if you have an individual and a joint checking account, perhaps you'll name the joint account debit card "Joint". To name your card, put your cursor in the CARD NAME box and type what you would like the nickname to be. The name you enter will be automatically saved.

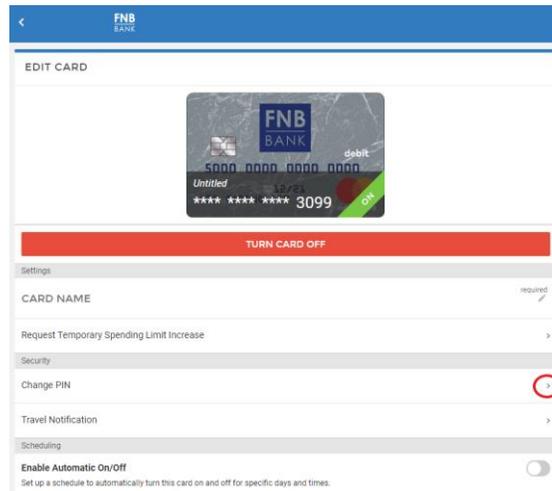

## Request Temporary Spending Limit Increase

All FNB Bank consumer debit cards have a default daily ATM withdrawal limit of \$300 and daily purchase limit of \$1,500. This card management feature allows you to temporarily set your purchase limit to the full balance of your checking account or \$10,000, whichever is less, for a period of 30 minutes to accommodate for a large purchase. Click **Request Temporary Spending Limit Increase** and **CONFIRM SPENDING INCREASE**.

## Change PIN

Digital Banking card management provides the option to change your debit card PIN. Click **Change PIN**. Enter and re-enter your desired 4-digit PIN and **CHANGE PIN**. Please note: You do not need to know or provide the current PIN in order to change it through digital banking.

### CHANGE CARD PIN

**ENTER YOUR PIN**

Please enter a 4-digit PIN

PIN  
....

Please re-enter your PIN to confirm it

RE-ENTER PIN  
....

**CHANGE PIN**

## Travel Notifications

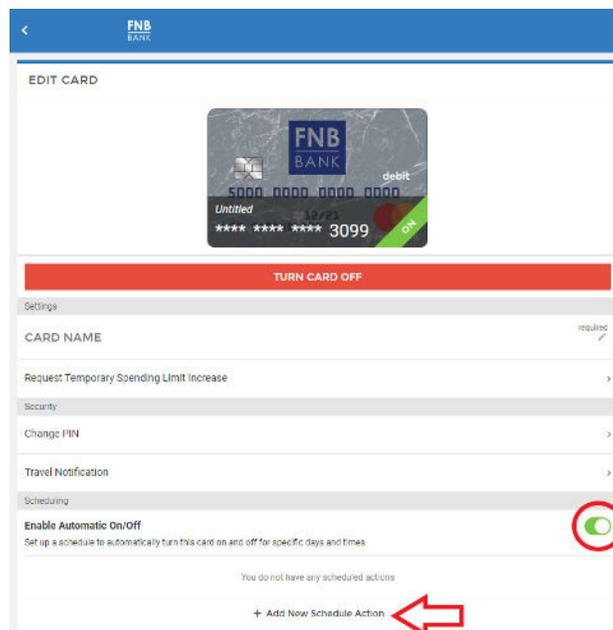

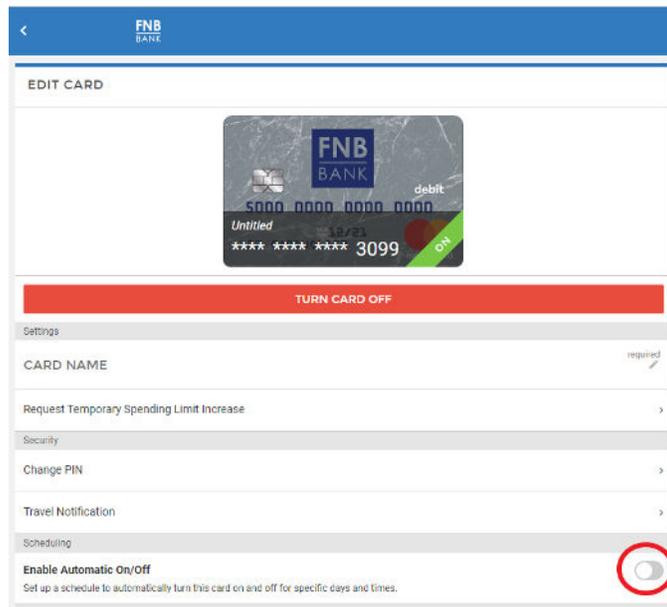

At FNB Bank, the customer security is our primary focus. That's why fraud analysts are always monitoring Cardholders' activity for anything unusual or suspicious. When suspicious activity is suspected, typical protocol is that the card will be deactivated until the Cardholder verifies legitimacy. This can be very frustrating or inconvenient when traveling. One red flag of unusual activity is using your debit card outside of its typically geographic location. If you plan to travel outside of your area, let us know with travel notifications. This will let fraud analysts know where your card will be used and when. Click **Travel Notification**. Enter the cities where you plan to travel and your expected travel dates. Then **SUBMIT TRAVEL NOTIFICATION**.

The screenshot shows the 'EDIT CARD' screen in the FNB Bank mobile app. At the top, there's a blue header with the FNB BANK logo. Below it, the title 'EDIT CARD' is displayed. A card image is shown with the FNB BANK logo and the word 'debit'. Below the card image is a red button labeled 'TURN CARD OFF'. Underneath is a 'Settings' section with several options: 'CARD NAME' (with a 'required' indicator), 'Request Temporary Spending Limit Increase', 'Change PIN', 'Travel Notification' (which is circled in red), and 'Enable Automatic On/Off' (with a toggle switch). The 'Travel Notification' option is highlighted with a red circle.

The screenshot shows the 'TRAVEL NOTIFICATION' form. At the top, there's a title bar with 'TRAVEL NOTIFICATION' and a close button. Below the title bar is a green suitcase icon. The text reads: 'Inform us when you are traveling to help us make better decisions while protecting your card. Otherwise, we might deny purchases you make.' Below this is a section titled 'Provide locations and press Enter after each one:'. There are three input fields for locations: 'New York, NY x', 'Boston, MA x', and 'Washington D.C. x'. Below the locations is a section titled 'Travel Dates'. There are two input fields for travel dates: 'BEGINNING TRAVEL DATE' with the value '4/19/2021' and 'ENDING TRAVEL DATE' with the value '4/30/2021'. At the bottom of the form is a green button labeled 'SUBMIT TRAVEL NOTIFICATION'.

## Enable Automatic On/Off

Automatic On/Off allows you to put your debit card on a (de)activation schedule. For example, if you are confident that you will not use your debit card after 11 p.m., you can set this schedule so that each night at 11 p.m, your debit card is automatically turned off and will reject any attempted purchase. To enable this feature, switch the toggle from gray to green. Then, click + Add New Schedule Action

Choose the desired action to ON or OFF, the time you would like the action to occur and which days of the week. Then **SAVE SCHEDULE**.

ADD NEW SCHEDULE ACTION ✕
